

# Magna

The perfect combination of power and efficiency

# Magna

The design of Magna places the operator at the center, protecting him or her within a robust structure and ensuring that he or she is surrounded by a comfortable and functional space.

The size also conveys this model's power and solidity externally as well, as it has been created for the most demanding environments. The front of the machine, the elongated LED headlights, and the sleek shape lighten the bulk and emphasize the in-depth research that led to the development of this perfect combination of power and aesthetics.

Compartments designed for the extra accessories do not interfere with the original shapes either, rather they become part of the machine itself.

The technology on board improves the user experience and increases interaction, given that there are more functions and programs designed to reduce consumption, optimize cleaning times and lower cleaning costs.

# Magna

## Quality materials are at the heart of its robust core

The aesthetically pleasing design highlights the robust construction, suitable for demanding applications in industrial environments

The polyethylene which composes the body of the machine offers high resistance to impact.  
It protects all of the internal parts of the machine in order to prevent possible damage during use

The aluminium of the chassis increases reliability over time

# Magna

## Comfort is essential for a job well done

The driving position offers full visibility and is spacious and accessible from both sides.

It has a comfortable seat with arm rests, plenty of space for the legs, an ergonomic steering wheel and all of the controls concentrated on the touch screen display.

The operator is at ease knowing he has complete control over the machine and can manage all of the activities from a comfortable position, which includes enabling all of the necessary functions in a simple and intuitive manner.

Boasting FNC and Eco Mode technology, the Magna is extremely quiet, which benefits the health of the operator and of any people nearby

The lateral paddles help to ensure the operator is always facing the direction of travel, with no distractions

The lowered footboard facilitates access from both sides and allows the operator to sit easily without any effort

# Magna

Comfort is essential  
for a job well done

**NO TRAINING**

The integrated video tutorials demonstrate how to perform routine and extraordinary maintenance

## SERVICE LIGHTS

The exclusive lights pack offers increased visibility of the parts which could require operator inspection, illuminating the relative zones with LED lights

FFF – FIMAP FAST FILL

Automatic system for filling the fresh water tank, lets the operator perform other activities while the tank quickly fills up

SPRAY GUN

Facilitates quick and easy rinsing of the recovery tank at the end of the operation

YELLOW COLOUR-CODED PARTS

Parts which must be cleaned regularly at the end of every shift are colour coded in yellow for easy identification, saving time and making sure that your scrubbing machine is kept in perfect condition at all times

# Magna

Equipped to provide you with the best performance possible in any environment and under any conditions

## Dual 3-stage vacuum motor

Effective vacuum system which leaves the floor dry with no risk of slipping

## VACUUM WAND

Enables cleaning of areas that are difficult to reach with the machine and completing the operation every time

## BRUSHLESS MOTORS

For guaranteed reliability even in aggressive environments, with no maintenance required

FLR-FIMAP LONG RANGE  
Increases productivity by up to 70%

RAMP UP

## Astonishing performance in any situation

A special electronic control modulates power precisely, enabling the machine to climb ramps of up to 18% easily and smoothly, with no interruption or loss of power delivery.

## Adjustable pressure on the brushes

With a brush pressure which can be set to up to 150 Kg, the machine can tackle even the most stubborn dirt

### POWER MODE

When more scrubbing power is needed, activating Power Mode increases the delivery rate of detergent solution and boosts brush pressure and vacuum power for the time necessary to tackle heavy duty cleaning

### REAR VIEW CAMERA

Lets the operator monitor cleaning results in real time from the display, without taking his or her eyes off the direction of travel

### Light steering for even more operator comfort

The dual front wheel reduces the specific pressure exerted on the floor, making the steering action lighter. This solution also increases manoeuvrability and prevents marking, even on the most delicate floors

### A LATERAL BRUSH FOR EVEN MORE GREATER PRODUCTIVITY

The third brush moves laterally to facilitate cleaning along walls or shelves, increasing productivity by up to 15%

### Save time by working faster

Up to 6 Km/h in work mode and 9 Km/h in transfer mode

### Great autonomy

Work for up to 5 hours non-stop

# Magna

Designed to be the safest machine  
in any situation

ACTIVE TECHNOLOGIES to prevent accidents

ANTI-COLLISION  
SYSTEM

The anti-collision system  
detects obstacles  
when reversing

## Safety is paramount

The Magna is equipped with a host of safety systems and features to keep the operator in complete control at all times, working with total peace of mind

REAR VIEW  
CAMERA

Increases the safety of  
reverse manoeuvres

## Designed to be the safest machine in any situation

### ACTIVE TECHNOLOGIES to prevent accidents

TOUCH SCREEN  
DISPLAY

Enhances visibility in dim light

DESCENT  
CONTROL

Maintains a constant speed when driving downhill, and prevents sudden increases in speed caused by gravity

STEERING  
WHEEL  
CONTROLS

The steering wheel controls offer the operator even greater control when cleaning, and also improve safety by eliminating distractions and letting the operator keep his or her eyes on the zone ahead of the machine

STOP&GO

The traction control system, which brakes and holds the machine when the accelerator pedal is released, provides assistance for both uphill and downhill gradients

CRUISE  
CONTROL

Control device letting the operator set the required speed

ELECTROBRAKE

Is automatically operated when the machine stops. It works as a safety parking brake

ESC - ELECTRONIC  
STABILITY CONTROL

Automatically reduces speed when steering without the operator using the brake

HYDRAULIC  
DRUM BRAKES

Self-adjusting, guaranteeing the best braking performance

OVERHEAD  
GUARD

To protect operators working in warehouses and logistics centers

Front and rear LED headlights maximize work safety in all conditions

LED HEADLIGHTS

Any questions? Magna has all the answers: the video tutorials help the operator in every phase of the job

VIDEO TUTORIALS

### PASSIVE SYSTEMS to help the operator in case of emergency

Emergency sms

SOS DEVICE

Reduces time to service in case of emergency. The red button sends an sms alert to receive a prompt help, reducing downtimes

EMERGENCY STOP

By pressing a single button the machine stops immediately

# Magna

Driving system with touchscreen display which transforms cleaning into a revolutionary experience

**ECO MODE**  
To protect the environment

**POWER MODE**  
For maximum power when you need it

**REAR VIEW CAMERA**  
To keep everything under control

**VIDEO TUTORIALS**  
For a more efficient, fast and easy  
operator training

FIMAP FLEET MANAGEMENT

Developing new technology to improve efficiency is one of the core missions of Fimap.

An example of this is FFM, the Fimap Fleet Management system which collects the data sent by the machines and transforms it into valuable information accessible to you easily in real time, 24/7, from your smartphone, through the app My.Machine.

Being constantly connected to your machines will help you operate them even more efficiently and effectively.

My.Machine lets you know where the machines are, if the operation is being carried out according to plans and at the scheduled time.

The machines health status is constantly monitored. In the very unlikely event of a breakdown, you'll receive an alert notification directly on your smartphone, allowing you to take action promptly and immediately call the technical support.

You can check the battery conditions and the quality of the charges in order to optimize battery endurance and life cycle.

Discover FFM and experience  
the advantages of being constantly connected  
with the My.Machine app!

Watch the video

My.Machine

Keep tabs on your machines remotely when you want and from wherever you want!

GEOLOCALISATION

You know where  
your machines are

USAGE  
INFORMATION

You know how your  
machines are used

HEALTH STATUS

You know the health  
status of machines  
and batteries

ENVIRONMENTAL  
IMPACT

You can check  
the machine  
consumption per  
intervention

# Magna

## Sustainable solutions to protect the environment

Fimap sustainable technological solutions guarantee a reduction in cost per sq.m. cleaned, more working autonomy, time savings and better cleaning results, enabling you to cover more surface area with the same resources.

The Eco Mode function helps prevent water, detergent and energy consumption by using only the quantities you need and nothing more

START&STOP

When the machine is idle, the brush motor, the vacuum motor, the traction and detergent pump will turn off automatically, reducing costs and emissions. All the functions are reactivated as soon as the operator touches the accelerator again

WATER

FLR-FIMAP LONG RANGE

Reduces water and detergent consumption per cleaning operation by up to 66%\*. This is a system which recycles detergent solution to increase autonomy: to scrub more sq.m. while using less resources

FSS-FIMAP SOLUTION SAVER

Water and detergent quantities are separately dosed, reducing consumption by up to 50%

FWF-FIMAP WATER FLOW

Ensures uniform cleaning results across the entire working width on the first pass, optimising detergent solution consumption

ENERGY

FES-FIMAP ENERGY SAVER

Reduces energy consumption by up to 35%

LED TECHNOLOGY

Up to 80% lower energy consumption than conventional headlights. The LED headlights consume much less energy than conventional headlights, offer a longer lifespan and illuminate with a brilliant white light similar to natural daylight

NOISE LEVELS

FNC-FIMAP NOISE CANCELLING

Reduces sound pressure

\*Saving calculated on a triple recycling cycle

# Magna

Choose the right version  
for your sector

DISC  
with 2 disc brushes  
or 2 pad holders

CYLINDRICAL  
with 2 cylindrical brushes and a debris  
hopper for small sized solid debris

Basic

**PLUS**

# Magna

Enhance it with the most suitable accessories for your specific requirements

## OPTIONALS

Vacuum wand

Spray gun

Seat with armrests and seat belt

FFF-FIMAP FAST FILL

Side scrubbing brush  
(available for disc versions)

2 side scrubbing brushes increase  
cleaning performance along walls  
(available for Cylindrical versions)

Dual 3-stage vacuum motor

FFM-FIMAP FLEET MANAGEMENT

Front and rear LED headlights kit

Rear/front super elastic wheels kit, for minimal vibration and increased comfort

Overhead guard and bumpers

FSS-FIMAP SOLUTION SAVER

FLR-FIMAP LONG RANGE

## ACCESSORIES

A wide choice of disc or cylindrical brushes in PPL is offered, 0.6 or 0.9 thick. These offer the perfect solution for dealing with any type of dirt on any floor

Abrasive brushes:  
Ideal for heavy duty cleaning on industrial surfaces

Rear squeegee rubber blades

33 SHORE (PARA): For maintenance cleaning of smooth floors

40 SHORE (PARA): For stubborn dirt on floors with joints

POLYURETHANE: For heavy duty cleaning on industrial floors, even with wide gaps

# FIMAP LIFE

Your best investment in cleaning

The service package that gives you more of what you need for less than you think!  
We want you to deal only with your work, leave everything else to Fimap Life!

## FIMAP INTELLIGENCE

Using powerful software, unique of its kind, and on-site advice, Fimap supports you in choosing the ideal model and its optimum configuration, according to the type of environment to be cleaned and your requirements.

## FIMAP FINANCE

Fimap offers various financial solutions that can be adapted perfectly to your business.

## FIMAP MAINTENANCE

With Fimap Maintenance will not have to worry about maintenance of the product: your Fimap machines will always be as new and ready for use. Choose from the three Service Packs offered - Light, Smart or Full - to suit the needs of your job.

## FIMAP FLEET MANAGEMENT

Fimap Fleet Management (FFM) service transforms the data received from the machines into information that is essential to improve the performance and productivity of the fleet. Through the app My.Machine it provides a comprehensive overview of the machines in use, helping you to reduce costs and optimize cleaning times.

## FIMAP NETWORK

Fimap is always there for you: our global network of certified dealers guarantees a rapid response support service, wherever you are.

## FIMAP ACADEMY

In a market that is becoming more and more competitive, Fimap offers a new support service for cleaning contractors, a growth opportunity for the professionals of today and tomorrow. This dedicated training program addresses various subjects that are relevant for the daily requirements of customers.
