## Cordless vacuuming with great cleaning performance

---

A well trusted name in the community, the vac 9B has surprised every user with its proven mobility, design and power. The i-power 14 batteries powering the engine guarantee a longer run time than other cordless machines!

# Key features

## i-power 14 batteries

Two-slot system for flexible runtime of either 40 minutes (one i-power 14 battery) or 80 minutes (two i-power 14 batteries). No longer are you bound to cords or outlets!

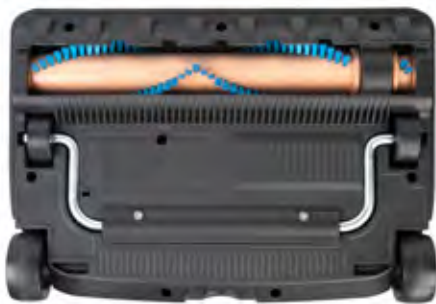

## Supercharge your batteries

The i-power batteries can now be powered up with the new super smart charger. Charge faster than ever before, to make sure you are always on the go!

## Smart charger

Battery management system that never overpowers itself for maximum lifespan. The system contains an integrated percentage indicator.

## Optional i-brush

This optional floor tool simultaneously agitates the carpet and removes dirt and dust. Powered by the battery.

## High powered engine

High powered motor reaches about 80% (indication) of the suction power that cable operated vacuums use, without the strain of being tied down to one place.

# i-brush

In need of some extra power to get the job done? Dirt and dust disappear with the revolving brushes inside our power nozzle.

- On and off control at your fingertips
- Height adjustment with the pedal
- LED lighting for working area
- Telescopic wand with integrated cable and hose

## Technical Specifications

Voltage	DC 24v
Weight	6.0 Kg
Power (Watt)	180 W
Material	PP
Sound Level	50 dB
Diameter of access	32 mm
Cleaning width	300 mm

## Technical specifications

Carry weight	7 kg
Size body (l x w x h)	45 x 45 x 41 cm
Hose length	250 cm
Capacity	9 L
Diameter of tools	32 mm
Sound level	58 dBA
Water lift/suction	1250 mm
Air flow	40 L/sec
Application	Indoor, dry
Power	i-power 9, 14 or 20*
Runtime	80 min with i-power 9, 100 min with i-power 14 & 140 min with i-power 20
Charge time (i-charge 2)	5-6 hours for i-power 9, 7-8 hours for i-power 14 & 7-8 hours for i-power 20
Charge time (i-charge 9)	60-70 min for i-power 9, 90-100 min for i-power 14 & 120 min for i-power 20
Charger type	Off-board
Charger	110-240V, 50/60Hz
Material machine	PP

\*Battery and charger can be ordered separately.

VI.02-20180913

The filtration on this machine is upgradeable from standard, to HEPA, to ULPA. Available in private label for our customers in 20 and 100 batches. Customize your machinery with your own names and logo's to project your company/industry image.
