

CREATING A CLEANER, SAFER, HEALTHIER WORLD.

EQUIPMENT

T1B

BATTERY WALK-BEHIND SCRUBBER

- Cord-free flexibility for cleaning in congested or tight spaces
- Optional lithium-ion battery for up to 20 times longer battery life and multiple charges per day
- Reduce the risk of slip and fall accidents in narrow, congested spaces with excellent water recovery – in forward and reverse

T1 BATTERY MICRO SCRUBBER

SCRUBBING SYSTEM

Cleaning path	380 mm
Productivity (per hour)	
Theoretical max	1,380 m ²
Estimated actual coverage*	720 m ²
Down pressure	17 kg
Scrub motor	490 W
Scrub speed	900 rpm
Brush size	89 mm (diameter)

SOLUTION SYSTEM

Solution tank capacity	9.5 L
Solution flow rate	0.37 L/min

RECOVERY SYSTEM

Recovery tank capacity	13 L
Water lift	635 mm
Vacuum motor	380 W

POWER SYSTEM

Battery (lithium-ion or AGM)	12.8 VDC
Battery run time	
(lithium-ion AGM)	up to 60 mins up to 45 mins

MACHINE SPECIFICATIONS

Length	1,150 mm (690 mm folded)
Width	500 mm
Height	860 mm (600 mm folded)
Weight (net)	
Lithium-ion battery	50 kg
AGM battery	57 kg
Sound level	68 dBA

WARRANTY

See your local representative for warranty information

*Estimated coverage results use the practical speed and empty/fill time standards from the 2004 ISSA Cleaning Times handbook

*Specifications subject to change without notice

CORDLESS VERSATILITY

GO MORE PLACES

Scrub tight, congested areas, in both forward and reverse, with the T1B's compact, maneuverable design perfect for cleaning entry ways, hallways, check out aisles and more. The T1B eliminates cord hazards and constraints, so your facility can be cleaned regardless of the time of day.

EASY TO USE AND MAINTAIN

Easy to fill, empty and clean Hygenic® solution and recovery tanks reduces the potential for bacterial growth. Ergonomic grips and adjustable handle also ensures easy handling around and under obstacles.

ALWAYS READY FOR USE

The T1B is available with an optional lithium-ion battery that provides up to 60 minutes of continuous run time. Lithium-ion batteries can be charged three or more times per day and compared to standard batteries last up to 20 times longer in high-frequency applications.
